

Exhibitions**June 8 – July 30 Art Tour - with resident artist Sue Moffitt**

On Sundays, over the period of the Art Tour, participating artists are to be found at work, and open their studios to the public. Sue is co-owner and resident artist at fifieforum – the gallery established with photographer husband Roy Sturgeon after finishing her Fine Art degree at Sunderland University. Sue's work has been shown in venues throughout the UK, and the demand for her unique style of animal portraits is growing rapidly. As a farmer's daughter the strong bond with farming is so rooted that she has continued to paint cows for the last 10 years; her paintings featured in a recent 'Dale's Diary' TV program. As well as the dairy cows on her brother's farm she also paints Highland cattle, hares, swans, ducks, dogs and hounds. A range of products based on Sue's original oil paintings are also available, including: handbags, place mats, coasters, mugs, aprons, tea towels etc.
